

SIMFISH

CHARACTERISTICS OF THE SPORT FISHING SIMULATOR SIMFISH

DESCRIPTION	SIMFISH
This simulator permits to use a large range of rods (from 4 grams to 12 pounds), simulating fishes going from small trout until tuna of 60 kg. This equipment is an essential tool for fishing shops, schools and fishing clubs, recreational centers...	

CHARACTÉRISTICS:

Simulation of River fishes (<i>see list below</i>)	●
Simulation of Sea fishes (<i>see list below</i>)	●
Penalty of the fisherman (<i>On/Off</i>)	●
Score for classification (<i>according time, difficulty level, sanctions...</i>)	●
5 levels of difficulty for each fish (<i>editable during fight</i>)	●
5 Languages (<i>French-English-German-Italian-Spanish</i>)	●
Emergency stop system	●
Dimensions of the Simulator	480 x 350 x 120 mm (<i>width x length x height</i>)
Complete space required	1 m x 3,5 to 6 m (<i>width x length</i>)
Electrical connection	110V / 220 V.

Video

Submarine images showing the fish during the fight (*hooked*). These images are synchronized with the moves felt on the line / rod of the fisherman (*jerks and rush*).
Moreover, the "**no-kill**" policy is advocated with images encouraging such practice.

5 Fishes included (*to select – see the list below*)

During starting procedure, the user will activate his machine by selecting his 5 fishes choice.
Then, it can be possible to buy additional fishes, directly thru SCATRI website.

Option :

Remote control
